

St Thomas More Catholic Primary School

ICT Acceptable Usage Policy

Schools

Purpose

'The digital world is characteristic of the contemporary world...the web and social networks have created a new way to communicate and bond...Yet to understand this phenomenon as a whole, we need to realise that, like every human reality, it has its share of limitations and deficiencies.'

Pope Francis, *Christus vivit*, 2019.

Access to digital technologies, including the internet, is provided to students and staff at St Thomas More Catholic Primary School because digital information and communication are important mediums for contemporary learning and teaching and administration. Within MACS a range of technology platforms, such as the Integrated Catholic Online Network (ICON) provide access to a suite of digital technologies. The information, communication and learning technologies used by students in classrooms will be appropriate to the age and development of students. These technologies are used to support professional learning and the development of networks within and between St Thomas More Catholic Primary School and other schools for professional learning. They also enable effective communication with our parents and allow them to participate in their children's education, working in partnership with teachers.

In using and managing internet and network services, students and staff at St Thomas More Catholic Primary School are expected to respect the rights and privacy of all persons. They are called upon to respect the dignity of every human person. St Thomas More Catholic Primary School, along with parents in our community, educate students in the use of information and communication technologies to assist them to become responsible users, creators and publishers in the digital environment.

St Thomas More Primary School believes that Information and Communication Technology (ICT) is a critical consideration in contemporary learning and teaching and in the development of an active inquiry based learning culture. Today's students live in a world where they have easy access to a wealth of information and are able to collaborate with other students and teachers, the wider school community and the world, as creators of knowledge.

St Thomas More is committed to inspire and engage our new generations of learners using modern technologies and tools to assist in reaching their full potential in all areas of the curriculum. In the light of St Thomas More's Vision, Mission and Goals, we recognise the need for students to be safe and responsible users of digital technologies. We believe that explicitly teaching students safe digital citizenship behaviours is best done with the support and collaboration of parents/guardians.

Student information and privacy is of paramount importance and as such St Thomas More Primary School has developed a policy document which outlines the technology which may be used for learning in classrooms. Today, young people have access to knowledge, people and new ideas like never before. They are able to connect, collaborate and build relationships with peers, educators and the wider global community. The use of digital technologies within Catholic schools supports learners to question, evaluate and consider the validity of information and then search for truths contained in those ideas. Learners are empowered to demonstrate adaptability and versatility in thinking and strategies as they select, use and manage a range of applications and technologies. We seek to develop students who are responsible and ethical communicators, creators and publishers in the digital community.

This policy outlines the appropriate use and management of digital technologies such as the internet and network services at St Thomas More Catholic Primary School in accordance with legal and moral requirements and expectations.

Scope

This policy applies to members of the St Thomas More Catholic Primary School community in their use of digital technologies. It applies to all computers, devices, internet and network services, information and communication technologies, applications, and systems provided, operated and managed by the school. This policy does not apply to the curriculum content or the expected standards of usage by students or staff in the school. The curriculum and teaching practices and pedagogy are outlined in documents related to our learning and teaching programs.

Definitions

Computer is either a desktop or portable laptop device that performs processes, calculations and operations based on instructions provided by a software or hardware program.

Device refers to a unit of physical hardware or equipment that provides one or more computing functions within a computer system. It can provide input to the computer, accept output or both. Typical hardware includes a computer mouse, speakers, printer and microphone.

Email means the system that enables users to send data over the internet using computers and mobile devices.

ICON means the Integrated Catholic Online Network which is used to deliver shared services for educational and administrative purposes across Catholic schools.

Internet means the system of interconnected networks that connects computers for data transmission and storage.

Intranet refers to a local system of computers enabling students and staff to communication and share information within their school community.

Mobile devices refers to (but is not limited to) mobile phones, PDAs and portable storage devices.

Network services means the facilities and resources located on and delivered via a computer-based network, including communication systems, internet and intranet services, mobile devices, electronic mail, web services, printer services, database services, back-up services, file services and network management services.

Parents includes parents, guardians and carers.

Social networking means web-based services that allow individuals to create their own online profiles and communicate with each other by voice, chat, instant message, image sharing, video conference and blogs in a virtual community.

Staff means salaried, voluntary and contracted persons.

Students means those students enrolled at St Thomas More Catholic Primary School.

Website is an internet based page or series of pages grouped together and managed by a person or group.

Principles

The use of digital technologies within our school by staff and students at St Thomas More Catholic Primary School is underpinned by the following principles and understanding:

- that digital technologies provide valuable opportunities for staff and students to collaborate, connect and create with peers, colleagues, experts and the wider community
- that online behaviour will at all times demonstrate respect for the dignity of each person in the community
- users will behave in a manner that is ethical when using the internet and network services (even for personal communication)
- the Catholic beliefs and ethos of the school, and professional expectations and standards required by teachers are demonstrated in the way the technologies are used
- inappropriate online behaviour, including cyberbullying, will not be tolerated.

Policy

Internet and Network Access

Access to internet and network services are provided by MACS to staff and students of St Thomas More Catholic Primary School for educational and administrative purposes. From time to time, other MACS policies and requirements in particular schools may result in restrictions.

Access rights assigned to students and staff at St Thomas More Catholic Primary School will be determined by the principal and may vary as educational and administrative purposes change.

Students and staff at St Thomas More Catholic Primary School may not use the internet and network services provided for commercial purposes, either offering or acquiring goods or services for personal use. The services cannot be used for political lobbying or proliferation of unnecessary communications.

Expectations of users

All students and staff at St Thomas More Catholic Primary School are required to use the internet and network services in accordance with this policy. Any use of devices or services that may be questionable, offensive, and controversial or against the Catholic ethos is unacceptable. This includes personal communication with students on matters not related to curriculum or education. These standards apply whenever St Thomas More Catholic Primary School equipment or communication lines are used, including use from home or other non-school location and when a private account is used.

Non-compliance with this policy

Disciplinary action may be undertaken by St Thomas More Catholic Primary School against any student or staff member who is found to be inappropriately using the provided internet, network services, device or mobile device. The principal will determine the disciplinary measures to be undertaken in accordance with other policies and guidelines. These measures may be outlined in staff handbooks or the Acceptable User Agreement for students used by St Thomas More Catholic Primary School.

Duty of Care

[eSmart Policy](#)

eSmart provides a guiding framework and system for behavioral change in school communities. As an eSmart School we wish to maintain a school community where the smart, safe and responsible use of communications technology is the norm. eSmart connects cyber safety with overall wellbeing and focuses on creating cultures of respect and personal responsibility. It provides users with practical knowledge to help support online safety and security.

The St Thomas More eSmart policy documents how we are addressing the eSmart Schools Framework (the key aspects of becoming and maintaining eSmart School status) and directly affects students, staff, families and the local community. It is the responsibility of all stakeholders to abide by the policy so as to support the efforts of St Thomas More in encouraging smart, safe and responsible use of technology and to enhance student wellbeing.

St Thomas More Catholic Primary School will provide instruction to students in online personal safety issues, including inappropriate sites, stranger danger, cyberbullying and scams. St Thomas More Catholic Primary School will prepare staff to deal with these issues.

Monitoring

Students

Online activities may be monitored or reviewed to assess network efficiency, examine system security and to investigate alleged breaches of this policy.

Staff

An authorised person (e.g. principal, Regional General Manager or other MACS staff member) can monitor the use of MACS ICT resources. Server logs may also be used in an investigation of an alleged breach of this policy.

Security

To minimise risk to MACS information and communication networks from viruses and intrusions, current virus screening software is activated, and where appropriate, passwords are used by staff and students of St Thomas More Catholic Primary School. Firewalls will be maintained. The management of system protocols and configurations are the responsibility of the staff authorised by the school or MACS. Non-authorised staff and students are not permitted to have access to these levels of system management.

Email

Email service is provided for educational and administrative purposes. Staff and students at St Thomas More Catholic Primary School must identify themselves appropriately by using a signature block at the bottom of the email message that includes their name, school phone number and postal address. St Thomas More Catholic Primary School advises students and staff that they may be held accountable for the email they create and distribute using the network.

Websites

St Thomas More Catholic Primary School may create, or have created, a website with the approval of the principal. These websites must be established and maintained in accordance with MACS policies and guidelines and relevant legislation.

Social networking

Provision of social networking for students must be related to an educational purpose. This is at the discretion of the principal.

Acceptable Use Agreements – to be developed by each school

Students and families are required to agree to the following”

- [STM Student Acceptable Use Agreement](#)

Two further documents have been developed in response to the demand and requirements for online and remote learning associated with government COVID restrictions

- [Student Online Code of Conduct](#)
- [STM Chromebook/iPad Policy](#)

Students

St Thomas More Catholic Primary School provides students and parents/guardians/carers with the following:

- a copy of St Thomas More Catholic Primary School Acceptable Use Agreement
- a copy of this policy.

The Acceptable Use Agreement is provided in full for consideration by all signatories. The Agreement is to be signed by the student, parent/guardian/carer and school representative before the student is given access to, and use of, a school’s internet, network services and devices.

Staff

Staff are required to use the internet and network services in accordance with this and other policies. St Thomas More Catholic Primary School provides staff with the following:

- a copy of this policy
- a copy of the Acceptable User Agreement.
